

BURNDY Announces Release of QuikTap™ Ground Rod Connector

Pre-welded coupling designed to compress onto ground rods

BURNDY, a leading manufacturer and provider of connector solutions to the industrial, energy, construction, telecommunication, petrochemical, data center, and transportation industries announces the release of the QuikTap™.

A multi-functional irreversible ground rod connection supplied with wire exothermically welded to a coupling ready for installation, the BURNDY® QuikTap™ is perfect for volatile or hazardous jobsites. The connection can be made using a ground rod driver to compress the coupling onto the ground rod, providing a convenient and safe irreversible connection. This is a quick and easy way to install in the field without the need for a burn permit and reduces concerns regarding hazardous materials and critical equipment. UL 467 Listed for Grounding and Bonding; Direct Burial in Earth or Concrete.

About BURNDY

Headquartered in Manchester, New Hampshire, BURNDY has over 90 years of dedicated customer support in both service and product. Our customers need to look no further than BURNDY for all their connector, tool, and accessory needs. BURNDY is the only manufacturer to have the BURNDY® Engineered System of coordinating dies, connectors and tools. The three elements have been specifically designed to work together and engineered to meet stringent, accepted quality standards allowing the user complete confidence in the integrity of the connection.
