

GAI-TRONICS CORPORATION

XTI0001A-G3 Radio Cable

Field Installation Kit Instructions

Confidentiality Notice

This manual is provided solely as an operational, installation, and maintenance guide and contains sensitive business and technical information which is confidential and proprietary to GAI-Tronics. GAI-Tronics retains all intellectual property and other rights in or to the information contained herein, and such information may only be used in connection with the operation of your GAI-Tronics product or system. This manual may not be disclosed in any form, in whole or in part, directly or indirectly, to any third party.

NOTE

When using the XTI0001-G3 radio cable with the GR1225 radio, the radio and ITI6000A must be programmed as follows:

- Active Low PTT; Active Low Carrier Detect; and PL Detect.
- The GR1225 and ITI6000A should also have the RX Audio source programmed for low level speaker (flat) audio.
