ABOUT GAI-TRONICS

Our earliest products set the industry standard for durability and reliability. While maintaining our commitment to the principles of quality and customer service, today we aggressively apply leading edge technology to address the world's most challenging communication needs. Backed by the stability, reputation, and financial strength of Hubbell Incorporated, GAI-TRONICS is a worldwide leader in electrical and electronic products.

WHY OUR PRODUCTS

GAI-TRONICS provides systems, products, and services to improve communications. The benefits to the stakeholders in these challenging environments are to improve reaction time and chances for minimizing injury, and saving lives.
