HUBBCOM™ IP DEVICES

Multi-function IP endpoint. Available in desktop and flush-mount options.

Models
- GSC1100   Desktop/Wall-mount with handset*
- GSC2100   Desktop/Wall-mount hands-free*
- GSC3100   Flush-mount with handset*
- GSC4100   Flush-mount hands-free*

*Options available

RED ALERT® TOWERS, WALL-MOUNT COMMUNICATION STATIONS & EMERGENCY PHONES

Models
- 234 Tower*
- 234FS Life Safety Tower*
- 234SBA Tower Broadcast Assembly*
- 234WM-202 Elite Wall-mount Comm. Station*
- 239WM-001 Slim Wall-mount Comm. Station*
- 240WM-001 Wall-Mount Comm. Station*
- 241WM-002   Wall-Mount Comm. Station*
- 397-001 Emergency Flush-mount Phone

*Phone Sold Separately

HUBBCOM™ RCS

Rugged serverless audio intercom and overhead paging device.

Models
- 915-A41R300   Indoor PoE+ handset/speaker amplifier station
- 925-A41R300 Outdoor PoE+ handset/speaker amplifier station

SPEAKERS

Ceiling or horn options available.

Models
- HP30-8 Indoor/Outdoor Horn Speaker (for HUBBCOM™ IP Devices)
- B650-8 Indoor Ceiling Speaker (for HUBBCOM™ IP Devices)

STROBES

LED blue strobe with constant-on and flashing operations; 12–24 V dc & 120 V ac

IP ALARM GENERATOR

Model
- GTC19001 IP Alarm Generator

BUSINESS CAMPUS CASE STUDY

A sprawling business campus in a suburban area required a combination of security and communications for their offices, warehouse and production facilities. With multiple entrances and a large parking lot, it was necessary to install security measures that ensured the safety of all employees and visitors. Inside, communications between the noisy production facility, large warehouse and multi-story office building needed to be improved and streamlined. The campus-wide communications solution needed to be reliable and economical.

SOLUTION

On campus grounds, emergency towers and emergency phones were installed to increase safety, as well as a push button telephone for visitor use. In both the production and warehouse areas of the business campus, a combination of HUBBCOM™ RCS units and HUBBCOM™ devices were installed to allow point-to-point communication, as well an IP alarm generator to broadcast announcements and alerts such as fire or weather alerts. In shared spaces like the lunchroom and conference rooms, where both form and function are important, HUBBCOM™ devices were installed. Speakers were also installed strategically throughout the facility so that announcements were able to be heard in every location.

PRODUCTS

HUBBCOM™ IP Devices
HUBBCOM™ RCS
VoIP Emergency Phones
Mass Notification Products
Strobes, Speakers, Horns
IP Alarm Generator
Towers & Wall-mount Comm. Stations
Phone Monitoring Software (TMA)

One system that addresses all of our needs.
