- **Wind Speed Rated at 160 MPH***

GAI-Tronics' 234FS RED ALERT Compact Tower is part of a completely integrated emergency communications station. Designed for use where a smaller tower presence is desirable, the FS series unit provides solutions to security concerns for:

- College / K-12 Campuses
- Parking Lots
- Transit Platforms
- Shopping Malls
- Sports Arenas
- Walkpaths

At only 7-ft. tall, the 234FS Tower is ideal for use where height might be interruptive to the surrounding area. Buildings with overhangs or entryways are an ideal location for the this tower. Equipped with a model 540-001 Constant-on, Blue LED strobe (shipped separately), the 234FS commands attention at any location.
