FOR IMMEDIATE RELEASE

Bell Expands Outdoor Decorator Switch Cover Line

South Bend, Indiana October 22, 2019 – Bell expands its unique weatherproof decorator style switch cover line with new colors. The first of their kind on the market, these products offer convenience and weatherproof safety for outdoor lifestyles. The Bell Outdoor brand, part of Hubbell Commercial Construction, provides innovative electrical products to industrial, commercial and residential markets.

The Bell Weatherproof Decorator Switch Cover product line now adds White and Bronze colors to 2 gang and 3 gang covers. Previously, they were only available in Gray. Now all three colors are available across the line. Part of Bell's Outdoor Comforts™ line, the switch covers enhance outdoor living spaces with the same convenience and comfort as indoors.

These covers provide convenient on/off rocker functions just like uncovered indoor Decorator style switches. An internal elastomer membrane provides weatherproof protection for the switch underneath. These models are compatible with single pole or 3-way Decorator switches. Also available is a kit that includes a gray single gang cover with a 15A single pole decorator style device.

Bell's Outdoor Decorator Switch Covers provide homeowners an easy solution to upgrade to contemporary switches for today's outdoor living. Attractive appearance combines with ease of use. Applications include exterior wall mounted patio and deck lighting, BBQ islands, pool & spa controls and more. These products are also suitable for use in commercial applications.

Bell Weatherproof Decorator Switch Covers are available now. Find more information at www.hubbell.com.
