Increase profitability through workplace improvement!

Document the Value!

Ergo Tool Balancers and Retrievers provide the key to your cost saving strategy. All power tools such as drills should be installed with a balancer.

STRATEGY!

1. Prevent Injury
2. Provide clean workspace, increasing safety and efficiency

<p>Injury Type: Sprains</p>			<p>One sprain requires you to increase sales \$646,750</p>
---	--	--	--

FINANCIAL BURDEN	IMPACT
Direct cost of injury	\$30,798
Indirect cost	\$64,675
Additional sales required to cover injury (Indirect)	\$338,778
TOTAL Additional sales required	\$646,750 <i>just to cover a sprain!</i>

ADDITIONAL BENEFITS

1. Prolong employee ability to perform repetitive tasks with greater precision and efficiency
2. Stop replacing tools! No more dropped, broken, lost or stolen power tools!
