Nonmetallic Boxes, Covers and Accessories
## General Information

### Standards, 2020 National Electrical Code®

<table>
<thead>
<tr>
<th>MOST OFTEN REQUESTED SECTIONS OF THE 2020 NATIONAL ELECTRIC CODE®</th>
<th>HOW RACO® PRODUCTS HELP COMPLETE THE INSTALLATION</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>314.27 (A) Boxes at Lighting Fixture Outlets.</strong> Boxes used at lighting fixture luminaire shall be designed for the purpose.</td>
<td>Our octagon boxes are designed for direct mounting of light fixtures of 6 lbs or less. Device boxes are designed for the mounting, (by #6-32 screws), of devices such as snap-switches and receptacles. They are not suitable for support other than for very lightweight devices, such as a smoke alarm unit. (See Article 314.27 (A) (1) or wall fixtures 6 lbs. or less [See 314.27 (A) (1) [Exception].)</td>
</tr>
<tr>
<td><strong>410.20 Space for Conductors.</strong> Canopies and outlet boxes taken together shall provide adequate space so that fixture conductors and their connecting devices can be properly installed.</td>
<td>When calculating the minimum cubic inch requirements for an outlet box, the canopy may be included in the calculation. However, the canopy of the fixture/fan needs to be marked with the cubic inch capacity. The volume of an unmarked canopy may be used at the discretion of the local authority having jurisdiction.</td>
</tr>
<tr>
<td><strong>314.27 (B) Floor Boxes.</strong> Boxes listed specifically for this application shall be used for receptacles located in the floor. Exception: Boxes located in elevated floors of show windows and similar locations where the authority having jurisdiction judges them free from physical damage, moisture and dirt.</td>
<td>Only boxes that are UL Listed for the application may be fastened into the floor. RACO® floor boxes are in Section C in this catalog.</td>
</tr>
<tr>
<td><strong>314.27 (C) Boxes at Fan Outlets.</strong> Boxes that support ceiling fans must be listed for that purpose.</td>
<td>At any ceiling outlet that is intended to have a ceiling (paddle) fan installed, a UL Listed outlet box rated for ceiling fan support must be used. RACO offers a complete line of products designed for various applications and mounting needs.</td>
</tr>
<tr>
<td><strong>410.36 (A) Means of Support — Outlet Boxes.</strong> Where the outlet box or fitting will provide adequate support, a fixture shall be attached thereto or be supported as required by Section 314.27(A) (1) for boxes.</td>
<td>All outlet boxes that are intended to be used with fixtures are tested in accordance with UL 514A for steel boxes, UL 514C for plastic boxes. The test does provide an ample margin for safety.</td>
</tr>
<tr>
<td><strong>406.12, 406.3B, 406.4 Tamper-Resistant Receptacles in dwelling units.</strong></td>
<td>This prevents shocks to small children that like to insert keys, paper clips, etc. into the receptacle slots.</td>
</tr>

Nonmetallic Boxes, Covers and Accessories

1-GANG

Nonmetallic Cable Boxes, Covers and Accessories

SEE END OF SECTION (PG A95) FOR DETAILED DRAWINGS

APPLICATIONS
- RACO® Nonmetallic cable boxes are used in branch circuit wiring to splice wires
- Accommodate wiring devices such as switches and receptacles
- Provide excellent protection for wiring system or devices

PRODUCT FEATURES
- RACO® Nonmetallic cable boxes provide the installer with a cost alternative that is lightweight and easy to install
- Single-gang boxes have knockouts that break out quickly and cleanly for faster installation
- Positioning tabs for fast accurate mounting on studs or joists
- Oversized nail support that resists hammer impact and prevents box deformation

STANDARD MATERIAL
- Made of heavy-duty PVC (Polyvinyl chloride) compound

COMPLIANCE
- UL LISTED
- Boxes are listed for their Electrical Applications (Electrical Codes), UL Green Book
- Boxes are listed for mechanical properties, including the 2-hour Fire Rating, (building codes) UL Orange Book
- Federal Manufacturer’s number 28488

### Applications
- RACO® Nonmetallic cable boxes are used in branch circuit wiring to splice wires.
- Provide excellent protection for wiring system or devices.
- For use wherever lighting fixture canopies are to be installed.
- Ceiling boxes on this page are not designed for ceiling fan support.

### Product Features
- RACO® Nonmetallic cable boxes provide the installer with a cost alternative that is lightweight and easy to install.
- Self-clamping wire entry clamps.
- Round fixture boxes offer an optional front-mounted grounding screw.
- Oversized nail support that resists hammer impact and prevents box deformation.

### Standard Material
- Made of heavy-duty engineered compound. Base material is polycarbonate.

### Compliance
- UL® LISTED.
- Boxes are listed for their Electrical Applications (Electrical Codes), UL Green Book.
- Boxes are listed for mechanical properties, including the 2-hour Fire Rating, (building codes) UL Orange Book.
- Federal Manufacturer’s number 28488.

### Nonmetallic Cable Boxes

**Applications**
- RACO Nonmetallic cable boxes are used in branch circuit wiring to splice wires.
- Provide excellent protection for wiring system or devices.
- RACO® 7907, 7307, 7825, 7826RAC are not designed for ceiling fan support.

**Product Features**
- RACO Nonmetallic cable boxes provide the installer with a cost alternative that is lightweight and easy to install.
- Self-clamping wire entry clamps.
- Round fixture boxes offer an optional front-mounted grounding screw.
- For use wherever fans (Cat. #7120, 7120-1, 7120-VB only) or lighting fixture canopies are to be installed.

**Standard Material**
- Made of heavy-duty engineered compound. Base material is polycarbonate.

**Compliance**
- cULus LISTED.
- All versions of RACO 7120 are UL approved for nonmetallic wiring systems.
- Boxes are listed for their Electrical Applications (Electrical Codes), UL Green Book.
- Boxes are listed for mechanical properties, including the 2-hour Fire Rating, (building codes) UL Orange Book.
- Federal Manufacturer’s number 28488.

Nonmetallic Box, Covers and Accessories

Nonmetallic Boxes, Covers and Accessories

APPLICATIONS
- RACO® Nonmetallic cable boxes are used in branch circuit wiring to splice wires
- Provide excellent protection for wiring system or devices
- Accommodate wiring devices such as switches and receptacles
- Great for use in trailer applications

PRODUCT FEATURES
- RACO® Nonmetallic cable boxes provide the installer with a cost alternative that is lightweight and easy to install
- Self-clamping wire entry clamps
- All outlet boxes have a front-mounted grounding screw with combination straight/Robertson head
- Positioning tabs provide fast, accurate mounting on studs or joists
- Grounding screw provided

STANDARD MATERIAL
- Made of high strength Noryl®
- Noryl® is a registered trademark of General Electric Corporation

COMPLIANCE
- Listed
- Federal Manufacturer’s number 28488

APPLIcATIONS

- Vapor barrier boxes prevent unwanted penetration of exterior air and help maintain the existing interior environment from elements outside of the structure.
- RACO® Nonmetallic vapor barrier cable boxes provide the installer with a cost alternative that is lightweight and easy to install.
- RACO® Nonmetallic cable boxes are used in branch circuit wiring to splice wires.
- Accommodate wiring devices such as switches and receptacles.
- Serve as fixture support.
- Provide excellent protection for wiring system or devices.

PRODUCT FEATURES

- Self-clamping wire entry clamps.
- 7120VB boxes have a front-mounted grounding screw with combination straight/Robertson head.
- Vaper/air barrier flange and integral wire entry seal provides superior energy savings and quick installation.
- Hands free installation.
- For 1/2", 5/8", or 3/4" drywall.
- Unique saddle design straddles standard joists - 7120VB.
- 7120VB prevents unwanted penetration of exterior air and helps maintain the existing interior environment from the elements outside the structure.
- Fits any 1-1/2" wide joist.
