FOR IMMEDIATE RELEASE

RACO Push-in MC Cable Connectors Speed Up Installation

South Bend, Indiana June 16, 2020 – RACO 38RAC and 40RAC push-in cable connectors make it easy to secure metal-clad cable into boxes or enclosures. These tool-less connectors quickly snap into box knockouts. RACO, part of Hubbell Commercial Construction, provides innovative electrical products to commercial and residential markets.

RACO's connectors save time and effort, fitting all standard half inch knockouts in electrical boxes or enclosures. Installers simply insert a cable into the connector, then snap it into a box knockout, done! These connectors can also be removed and reused.

The rugged one-piece design is made of corrosion-resistant zinc plated steel. Pre-assembled nylon anti-short bushing will not fall out during installation. Designed for residential or commercial installation, these products are suitable for dry locations.

The 38RAC connector is designed to connect and terminate MCI, MCI-A, AC, HCF, and FMC. Use the 40RAC model with MC-PCS, MC-PCS HCF, MCI, MCI-A, AC, HCF, and FMC. The 40RAC is tinted blue inside to indicate suitability for MC-PCS cable types for smart building applications.

RACO's 38RAC and 40RAC connectors are available now. Find more information at www.hubbell.com.

About Hubbell Commercial Construction

Hubbell Commercial Construction includes five brands that provide innovative and cost-effective electrical products with superior customer service for commercial and/or residential markets. RACO creates electrical boxes, covers, and fittings. TayMac crafts "while in use" covers for outdoor electrical applications. Bell produces weatherproof boxes, covers and outdoor lighting. Wiegmann offers the most complete line of electrical enclosures for OEM, Commercial Construction, and MRO markets. Acme manufactures power conversion and conditioning equipment for industrial, commercial and OEM applications.

These historic brands are part of Hubbell Inc., one of the largest electrical manufacturers in North America. The company's history of innovation extends back to the 1890s when Harvey Hubbell invented the pull chain light switch and duplex receptacle.
