**FOR IMMEDIATE RELEASE**

## **RACO Introduces Adjustable Open Center Bracket for Electrical Boxes**

**South Bend, Indiana** July 16, 2019 – RACO introduces the 9020R, a new Adjustable Open Center Bracket for electrical boxes. This addition to the bracket line provides additional flexibility for positioning boxes in new construction. RACO, part of Hubbell Commercial Construction, provides innovative electrical products to commercial and residential markets.

RACO's new heavy-duty 9020R bracket positions electrical boxes or plaster rings anywhere between studs. The 9020R can be adjusted for use on stud spacing anywhere from 16-24". It can also be cut for smaller spacing.

The 9020R adjustable bracket features a large opening, allowing multiple boxes to be mounted anywhere within the space. It accommodates 4" or 4-11/16" square boxes and plaster rings, even multi-gang boxes. The rigid design eliminates the need for far-side supports. It can be used on wood or metal studs. Center cutouts help in leveling for quick installation.

Made of galvanized steel, the RACO Adjustable Open Center Bracket is perfect for commercial construction. It provides maximum flexibility for installers while reducing SKU's on the jobsite. The 9020R is UL Listed.

Availability of RACO's Adjustable Open Center Bracket begins August 2019. Find more information at [www.hubbell.com](http://www.hubbell.com).

### **About Hubbell Commercial Construction**

Hubbell Commercial Construction includes five brands that provide innovative and cost-effective electrical products with superior customer service for commercial and/or residential markets. RACO creates electrical boxes, covers, and fittings. TayMac crafts "while in use" covers for outdoor electrical applications. Bell produces weatherproof boxes, covers and outdoor lighting. Wiegmann offers the most complete line of electrical enclosures for OEM, Commercial Construction, and MRO markets. Acme manufactures power conversion and conditioning equipment for industrial, commercial and OEM applications.

These historic brands are part of Hubbell Incorporated, one of the largest electrical manufacturers in North America. The company's history of innovation extends back to 1889. Founder Harvey Hubbell invented the pull chain light switch and duplex receptacle.
