**FOR IMMEDIATE RELEASE**

## **TayMac Expands Masque® Wall Plate Covers Line**

**South Bend, Indiana** June 11, 2019 – TayMac introduces two additions to the Masque® Wall Plates product line. These decorator covers provide an easy way to create a new look for worn or discolored outlets and switches without rewiring. TayMac, part of Hubbell Commercial Construction, provides innovative electrical products to industrial, commercial and residential markets.

TayMac's *Masque* 2520 models offer a classic duplex style. Contractors or Do-It-Yourselfers simply remove old wall plates and install new the covers, improving the appearance of a room in seconds. The design completely covers old outlets to provide enhanced aesthetics and durability. The jumbo size also hides excessive paint buildup from years of home remodeling.

*Masque* cover-up plates save time and money. The PVC material resists wear and tear, won't crack or distort during installation. Suitable for use in residential and commercial applications. The 2520 duplex style cover is offered in White or Light Almond.

Availability of TayMac *Masque* 2520 cover-up wall plates begins July 2019. Find more information at [www.hubbell.com](http://www.hubbell.com).

### **About Hubbell Commercial Construction**

Hubbell Commercial Construction includes five brands that provide innovative and cost-effective electrical products with superior customer service for commercial and/or residential markets. RACO creates electrical boxes, covers, and fittings. TayMac crafts "while in use" covers for outdoor electrical applications. Bell produces weatherproof boxes, covers and outdoor lighting. Wiegmann offers the most complete line of electrical enclosures for OEM, Commercial Construction, and MRO markets. Acme manufactures power conversion and conditioning equipment for industrial, commercial and OEM applications.

These historic brands are part of Hubbell Incorporated, one of the largest electrical manufacturers in North America. The company's history of innovation extends back to 1889. Founder Harvey Hubbell invented the pull chain light switch and duplex receptacle.
