Features Progress Lighting's Ratio, Point Dume™, and Latrobe collections - (Pg. 2 & 3)*

CONVENIENCE

Hubbell Residential's innovative charging and power solutions allow you to stay connected, without cords dangling across countertops. In the kitchen, dirty hands and full arms are no match for smart lighting controls.

COUNTERTOP POP-UP RECEPTACLES

A seamless power source that's there when you need it, and invisible when you don't.

WIRELESS WALL MOUNT CHARGER & USB OUTLET

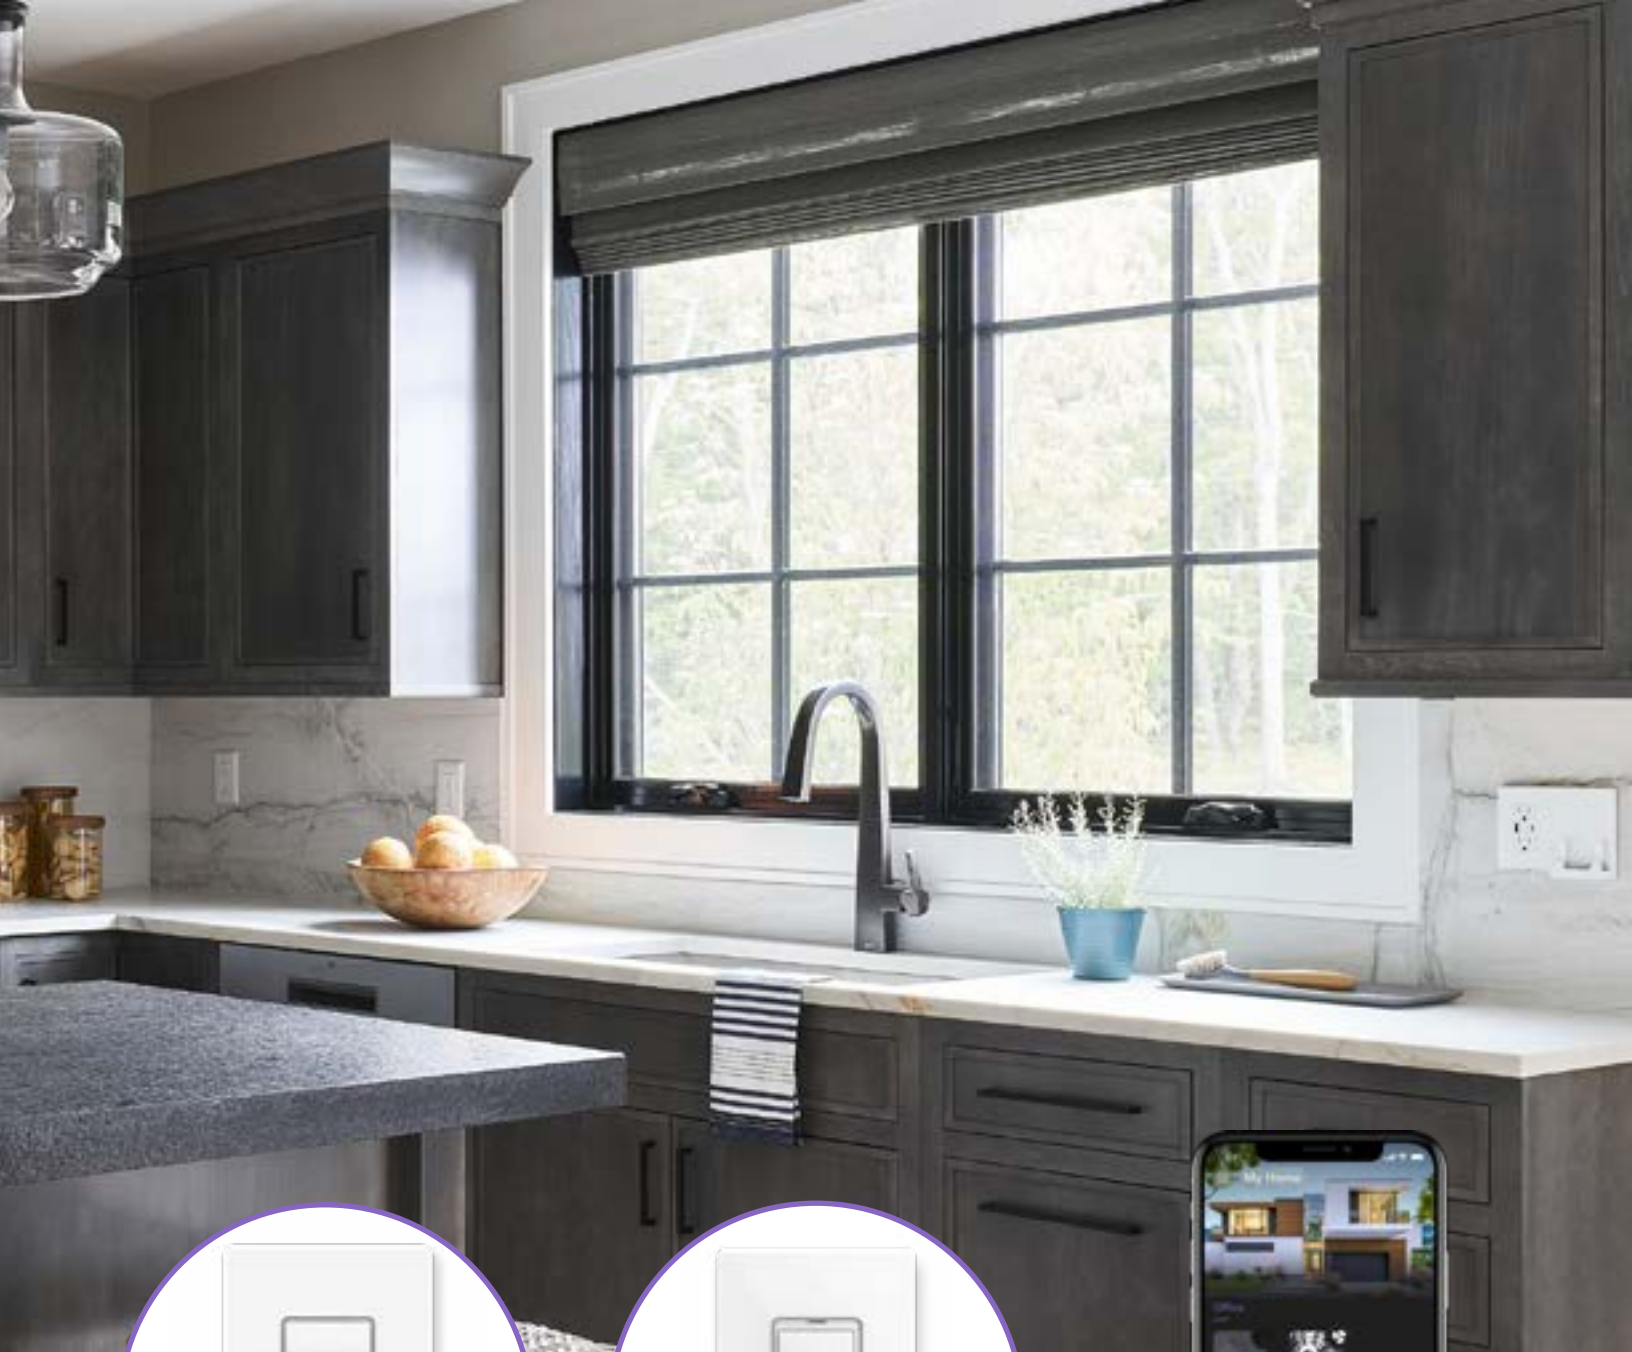

Free up space and keep devices off the counter with this all-in-one charging solution.

OCCUPANCY SENSORS

Switches that simply react to your presence for reliable lighting control.

Features Progress Lighting's Latrobe collection

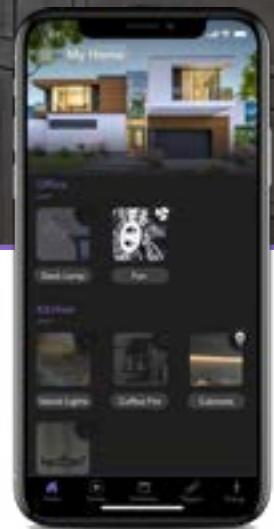

IDEVICES INSTINCT™

Stream music during a dinner party and play group games with Alexa built-in.

IDEVICES DIMMER/WALL SWITCH

Smart lighting solutions that brighten your home with app and voice control.

REMOTE ACCESS

The iDevices Connected app adds another layer of convenience by allowing homeowners to control their iDevices light switches, thermostats, and outlets from anywhere.

ENERGY EFFICIENCY

Create the perfect balance between efficiency and comfort with Hubbell Residential's energy efficient lighting, power, and HVAC solutions for the entire home. Make forgetting to turn off the lights a thing of the past.

OCCUPANCY SENSORS

Put your lights on autopilot in the laundry room or closet so you don't forget.

COUNTDOWN AND DIGITAL TIMER SWITCHES

Ensure lights in walk-through rooms and hallways turn off after a preset time.

IDEVICES WALL OUTLET

Prevent wasteful standby energy loads and use energy monitoring to track savings.

IDEVICES THERMOSTAT
Use dynamic custom schedules and automations to keep your HVAC system in check.

IDEVICES WALL/DIMMER SWITCH
Automate your lights to turn off or dim in the evening, or whenever you're not home.

ENERGY MONITORING*
Empower your home with real-time and historic energy consumption data, accessible from any mobile device through the iDevices Connected app.

**Available with iDevices Wall Outlet*

SAFETY & SECURITY

Make peace of mind a priority with a wide range of Hubbell Residential solutions, including receptacles that protect people and property, and switches that provide a guiding light inside and outside the home.

DECORATOR NIGHTLIGHT SWITCHES

Prevent falls at night with safety lighting in walk-through areas.

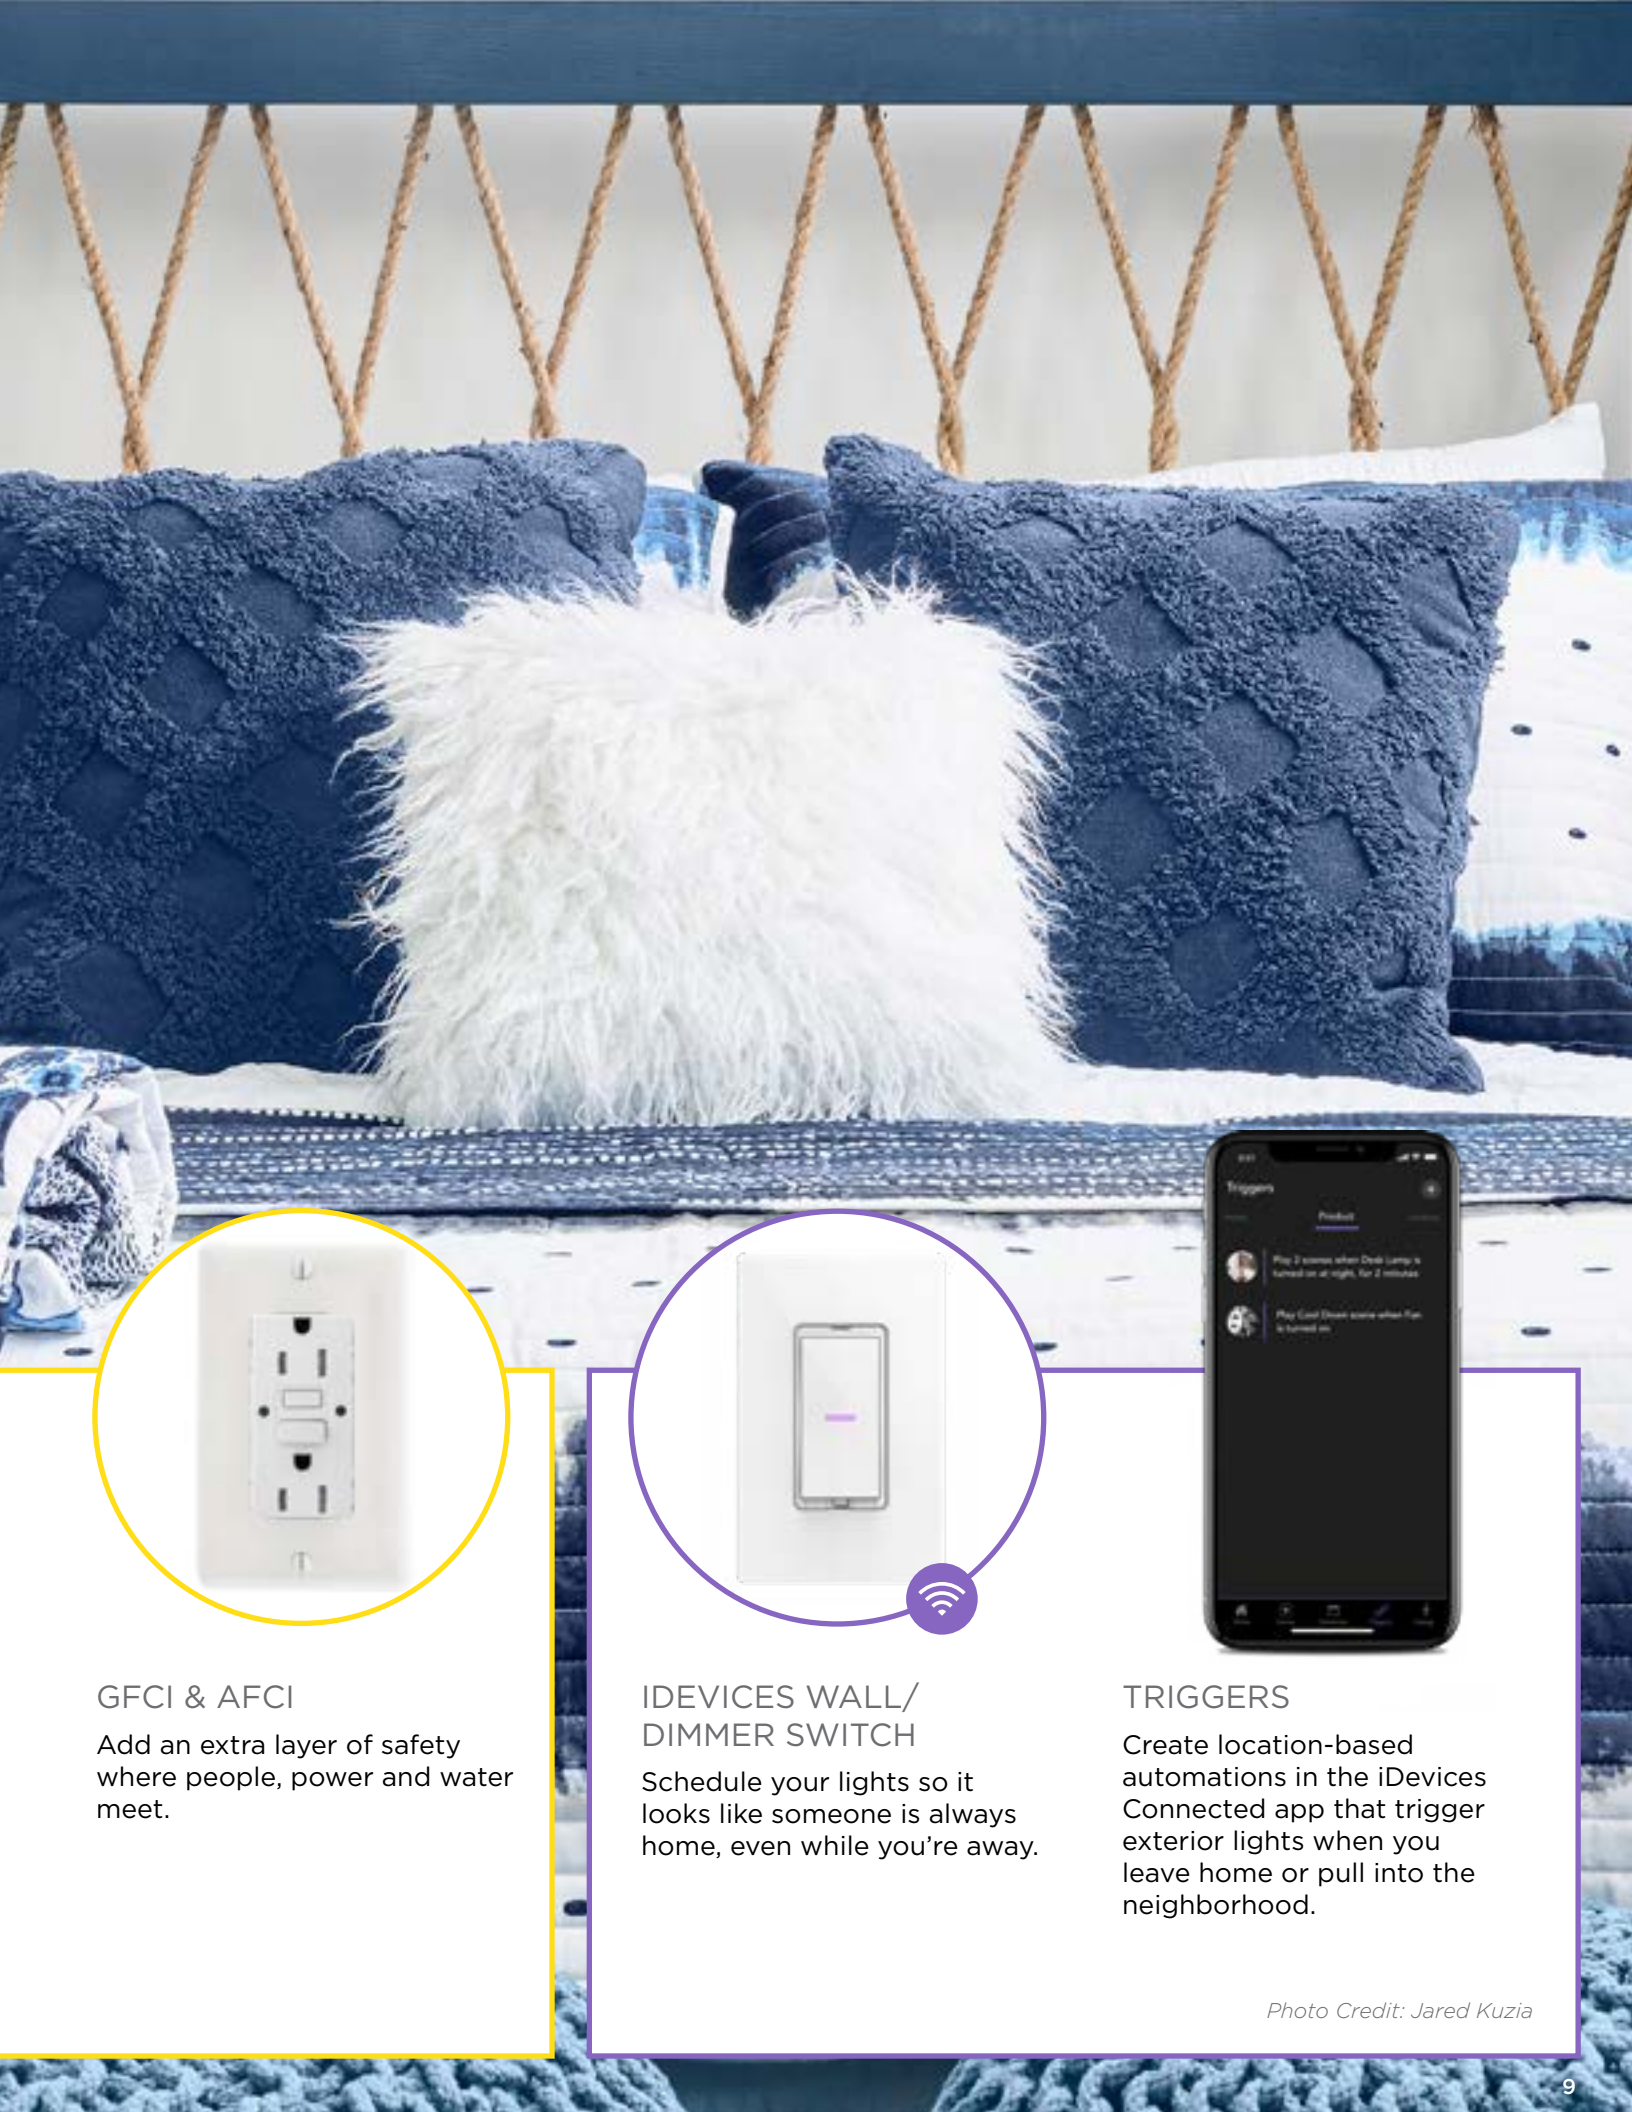

TAMPER RESISTANT RECEPTACLE

Keep your family safe with tamper-resistant devices and integrated LED night lights.

SURGE PROTECTIVE DEVICES

Protect your electronics, and your home, from unforeseen power variations.

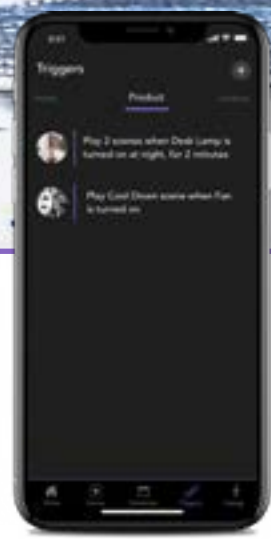

GFCI & AFCI

Add an extra layer of safety where people, power and water meet.

IDEVICES WALL/ DIMMER SWITCH

Schedule your lights so it looks like someone is always home, even while you're away.

TRIGGERS

Create location-based automations in the iDevices Connected app that trigger exterior lights when you leave home or pull into the neighborhood.

HOME ROUTINE

From smart light switches to USB charging outlets, Hubbell Residential has a broad line of products specifically designed to support working and learning from home. Don't stop at home office — create your very own home boardroom.

USB RECEPTACLE

Stay connected at home without the need for unsightly charging blocks.

NETWORK ENCLOSURES

Dependable and flexible management of your multimedia entertainment system.

USB CHARGER & SURGE PROTECTION RECEPTACLE

Keep devices in your home office connected and protected at all times.

IDEVICES INSTINCT™

Use Alexa built-in to stream music and remind you when to step away from your desk for a break.

IDEVICES DIMMER SWITCH

Set the lights to automatically dim closer to bed time to help regulate your circadian rhythm.

SCHEDULES

Create a schedule in the iDevices Connected app so your home office lights turn off or dim when your workday ends.

ENTERTAINMENT

Upgrade your home with Hubbell Residential technology to meet every home entertainment need. With flexible multimedia and wire management, your home theater will be the envy of the neighborhood.

HDBaseT

TVs, gaming consoles, streaming devices, and security cameras benefit from a dedicated, high-bandwidth wired connection. Hubbell uses the most advanced Class C all-in-one receptacle for your entertainment and AV needs.

RECESSED RECEPTACLES

Install furniture and panel displays flush against the wall. It easily installs to the studs without additional components or hardware.

FLAT TV CONNECTION ENCLOSURES

Combine HDMI connections with surge protection into one assembly to enable the optimum performance, flush against the wall with no dangling cords.

FLOOR BOX

Easy access to power and data that doesn't sacrifice your home's style.

IDEVICES DIMMER SWITCH

Make movie night and family dinners special with custom lighting scenes.

SCENES

Make movie night or the next family get-together extra special by creating custom, voice-enabled lighting scenes in the iDevices Connected app.

OUTDOOR LIVING

Hubbell Residential is redefining the weatherproof world of wiring devices with an exciting new lineup of switches, recessed receptacles and covers for a safe and connected outdoor living experience.

WEATHERPROOF STYLE LINE DECORATOR SWITCHES

A switch designed for the great outdoors — no cover needed. This first-of-its-kind switch meets and exceeds the 3R outdoor rating.

WEATHER RESISTANT USB CHARGER RECEPTACLE

Hubbell's weather-resistant USB receptacle expands device charging outdoors while keeping safety and reliability at the forefront.

AUTOGUARD SELF-TEST GFCI TAMPER & WEATHER RESISTANT RECEPTACLES

Designed with automatic “people protection capabilities,” these safety-first receptacles disconnect power if critical components are damaged and GFCI protection is lost.

Features Progress Lighting's Grandbury collection - (Pg. 15)

WEATHERPROOF RECESSED WHILE-IN-USE RECEPTACLE COVER

This recessed in-use cover is a great alternative for NEC code compliance when space and aesthetics are important.

WEATHERPROOF WHILE-IN-USE RECEPTACLE COVER

Perfect for the backyard patio, providing a safe, quick, and reliable way to charge portable electronics.

SCHEDULES

Set sunrise/sunset schedules with iDevices smart light switches to automatically control entryway and landscape fixtures for better security and curb appeal.

PROGRESS LIGHTING

Progress Lighting offers artfully designed lighting and ceiling fans that can be mixed and matched within the home to create a curated, cohesive feel and a one-of-a-kind living environment.

DECORATIVE

Create the perfect atmosphere with unique, on-trend decorative lighting that provides a beautiful finishing touch to well-appointed spaces.

CEILING FANS

Progress Lighting ceiling fans add an appealing décor element while creating a welcoming and comfortable space, indoors and out.

OUTDOOR

Take outdoor spaces to the next level with exterior lighting that reflects a home's design personality while offering beauty and safety.

Features Progress Lighting's Gallery Pendants, LED Recessed, & LED Undercabinet lighting

LED

Progress Lighting LED collections feature elegantly designed, energy-efficient fixtures that celebrate a wide variety of décor themes for every lifestyle.

UNDERCABINET

Progress Lighting undercabinet solutions are practical and on-trend for adding focused illumination wherever necessary, making spaces brighter and more functional.

RECESSED

A low-profile option for both ambient and direct downlight, Progress Lighting recessed solutions offer housing and trim choices to complement any space.

EV CHARGER

Innovative and energy efficient. Hubbell's Level 2 EV charger is the go-to solution for homeowners looking to do their part to preserve the place we all call home.

TIME DELAY

Set your vehicle to charge when utility rates are low.

20-FOOT CABLE

Designed for hassle-free storage so you have more flexibility charging at home.

DURABLE DESIGN

Cast aluminum housing prevents wear and tear.

FAULT PROTECTION

Automatically resumes charging following a minor fault, avoiding undercharged battery.

LOCKING FEATURE

Charging connector locks into place so you can plug-in with confidence.

ADDITIONAL FEATURES

- Compatible with any SAE J1772™ compliant charge port
- Status indicator lights
- Compact size
- Water-resistant
- Amperage selection option
- Ground monitor interrupter for safety
