

HUBBELL®
Wiring Device-Kellems

FASTENAL® **HEALTHCARE**

**Bin Stocking
Cross Reference Guide**

Use this guide to cross reference all of your customer’s wiring devices and lighting needs and to incorporate a Fastenal managed bin stocking program—all at a cost savings to your customers.

Table of Contents

Hospital Grade Receptacles	3-4
GFCI Hospital Grade Receptacles	5
Surge Supression and Isolated Ground Hospital Grade Receptacles	5
Hospital Grade Plugs and Connectors	6
Occupancy Sensors	7
Industrial Grade Switches	8
Hubbell Specialty "Hospital Only" Locking Devices	8
Twist-Lock® Single Receptacles	9
Twist-Lock® Plugs	10
Twist-Lock® Connectors	11

Our Ongoing Commitment

A lot has changed since Hubbell conceptualized the “Hospital Grade” standard back in the early 1970s to identify and ensure product performance for the hospital environment. The healthcare industry has experienced an evolution with several breakthroughs in sophisticated medical technologies and digital initiatives that are improving the quality of healthcare.

The environment may have changed, but Hubbell’s commitment has not. Whether it’s new digital diagnostic imaging equipment, mobile monitoring devices, state-of-the-art robotic surgery, or network communications, Hubbell understands that healthcare is where safety, reliability and performance matters most. That’s why we remain committed to developing superior products designed to support healthcare’s evolving environment.

Ensuring Maximum Sustainability

Hubbell recognizes that today’s healthcare facilities also have a need to improve efficiency and cut costs for maximum sustainability. These facilities have a long building lifespan, often expected to last for decades. At the same time, changes and upgrades in the healthcare environment are complex due to their 24/7 operation and strict regulations and codes. To ensure maximum sustainability, Hubbell devices and networking products support today’s more efficient healthcare operations while providing value, unmatched performance and extended lifespan to better match the building’s infrastructure lifecycle.

From the ICU to the Datacenter

With operating rooms, intensive care units, patient rooms and diagnostic centers, healthcare facilities include a wide range of complex spaces and applications for treating patients. These facilities also must serve a variety of visitors, care givers, administration and maintenance staff. Common areas, nurse stations, offices, conference rooms, kitchens and maintenance areas also all have their own unique needs. Whether it’s in a hospital or outpatient facility, Hubbell understands the equipment, applications and challenges of delivering power and communications in every healthcare environment—and we have the breadth of products to ensure safety, reliability and performance.

Precautions have been taken to assure the accuracy of the information in this crossover and data may not reflect a relationship between the quality level of the competitive wiring devices to Hubbell Wiring Devices. It merely is a numerical crossover. For those numbers or manufacturers that do not appear in this crossover tool, e-mail or call Technical Services. Typographical errors which are brought to our attention will be corrected in subsequent updates. Hubbell reserves the right to make changes to this crossover without prior notification.

Literature Support

Hubbell offers an extensive literature library for product support. Downloadable PDFs are available online.

Hubbell Wiring Device-Kellems

Online Virtual Catalog

Find what you need quickly on the Hubbell Wiring Device-Kellems website, www.hubbell-wiring.com. The online virtual catalog allows you to print, search and download PDFs anytime, anywhere.

Online Technical Support

Search our knowledge base for the answer to your technical questions regarding Hubbell products, or submit a new question to Technical Support. Browse the customer drawing library by part number or product family. Drawings are available in PDF and DWG format. Our Twist-Lock selector tool is also available as a downloadable App.

Take the Virtual eTour

Hubbell's in-depth virtual tours are designed to graphically and innovatively demonstrate where and how Hubbell's full line of wiring devices for power, data, voice and multimedia are deployed. In the Hubbell Healthcare eTour, users can navigate their way through nine specific areas of a virtual hospital. There are 20 unique spaces where Hubbell product solutions are identified at work.

Online Resources

Available Hubbell Literature

Healthcare Brochure

A lot has changed since Hubbell conceptualized the "Hospital Grade" standard back in the early 1970s. Hospital Grade was developed to identify and ensure product performance for the hospital and healthcare environments. Find our latest brochure online at www.hubbell-wiring.com/healthcare.aspx

Website Support

The Hubbell brand websites feature quick links to Hubbell's bin stocking oriented products, virtual and downloadable PDF catalogs, resources, support and ordering tools. The websites also offer extensive literature libraries and strategic market landing pages.
