

# Quick Reference Guide

## Vaccination Cold Storage & Transportation

The requirement to keep approved vaccines at designated temperatures has brought the importance of cold transportation and storage to the forefront. Hubbell offers a wide array of products that provide safe and reliable connections to support the need for the power to protect this essential cargo in each step of the supply chain.

### Twist-Lock® Devices

- » Industry recognized **leader in durability and performance**
- » Molded in tough nylon, Insulgrip® devices ensure **high impact, heat and chemical resistance**
- » **Superior cord clamp design** protects terminations from excess strain

### IEC Pin & Sleeve Devices

- » Heavy duty non-conductive nylon construction provides **impact and corrosion protection**
- » Pin and sleeve devices are available in configurations from **20A 125V to 100A 600V AC**

### inSIGHT™ Data Monitoring Pin & Sleeve Devices

- » **Wirelessly monitor and track** critical performance indicators such as **current, voltage, and temperature**
- » **Provides data** directly at point of use to **proactively communicate** process changes

### inSIGHT™ Environmental & Circuit Monitors

- » Environmental monitors can accommodate up to **six external temperature probes**
- » **Easy-to-install** current transformers can **connect to existing circuits** without the need to disconnect power

### Reverse Service Mechanical Interlock & Plug

- » For applications where the plug is energized (i.e. from a generator) to feed a non-energized receptacle. **Prevents easy contact with energized exposed pins**
- » Switch cannot be turned **ON** until the **plug is completely engaged**, and the plug cannot be removed until the **switch is turned OFF**

# Quick Reference Guide

## Vaccination Cold Storage & Transportation

### inSIGHT™ Disconnects with LEDs

- » Visually communicates electrical status of the switch by phase prior to removing the cover to improve safety procedures

### LINKOSITY® & MotorQuick™

- » Hubbell LINKOSITY® and MotorQuick™ are **prewired systems** for fast installation
- » The enclosures are **certified by NSF** and are **IP69K rated** for use in high pressure washdown
- » **Safely make quick moves & changes** on the plant floor

### inREACH™ Cord Reels

- » Installation prep can be done **by one person** within minutes
- » The inREACH™ mounting bracket **reduces labor costs** while complying with OSHA and COVID-19 restrictions

### Wire Basket Tray

- » **Field configurable** to handle the most challenging installation
- » Available in **pregalvanized, painted, stainless steel, hot dipped** and **electro zinc plated**

### Kellems® Wire Management

- » Stainless steel mesh is **corrosion resistant** and can be used **inside or outside**
- » Stainless steel grips help to **alleviate pull tension** on terminals, **control cable arc-of-bend**, **prevent cord pull-out** and provide a **liquidtight seal**

### Hospital Grade Receptacles

- » Ensure durability with **superior impact and chemical resistance**
- » **External wiring clamps** allow for **visual inspection** of the terminals
