

PHARMACEUTICAL PRODUCTION SOLUTIONS

The complex needs of pharmaceutical manufacturing demand robust electrical products that can drive reliable performance in harsh conditions. Invest in high-performing design that improves efficiency and productivity. Hubbell products exceed code requirements and deliver greater uptime.

Our solutions were created with challenging pharmaceutical applications in mind. We match a broad range of premium-quality products to your business priorities, generating industry-leading results.

SOLUTIONS FOR YOUR SPACE

CHEMICAL PLANT | FILTRATION, DISTILLATION, SEPARATION SYSTEMS, AIR HANDLING UNITS

Hazardous Location Disconnects

Circuit-Lock® Disconnect Series

For harsh applications, in 30, 60 and 100 amp versions

Hazardous Location Mechanical Interlocks

Circuit-Lock® Disconnect Series

Eliminate the possibility of making/breaking the circuit under load

Hazardous Location Plugs

Circuit-Lock® Disconnect Series

Interlocked plugs suitable for use in wet, dirty locations with frequent washdown activity

FERMENTATION PLANT | MIXERS, CENTRIFUGES, DYNAMIC BREAKING

Liquidtight Conduit Grips

Kellems® Wire Management

Ensure leakproof integrity and connectivity despite flexing, vibration, and wet locations

Stainless Steel Disconnects

Circuit-Lock® Disconnect Series

Stainless steel products that withstand exposure to water, chemicals, and oil.

Stainless Steel Sloped Top Disconnects

Circuit-Lock® Disconnect Series

15° sloped top design sheds water and debris, enhancing washdown effectiveness

PHARMACEUTICAL PLANT | FILTRATION, GRANULATION, DRYING, TABLET COMPRESSION

Stainless Steel Sloped Top Disconnects

Circuit-Lock® Disconnect Series

15° sloped top design sheds water and debris, enhancing washdown effectiveness

Linkosity®

Plug and Play Wiring System

Install or move wiring connections in a fraction of the time traditional methods require

Watertight IEC Pin & Sleeve

Pin & Sleeve Devices

Rugged watertight IP69k and UL Type 4X devices withstand harsh environments

PHARMACEUTICAL PLANT | PACKAGING LINE, STORAGE, LAB FACILITIES

Prewired Raceway

Wire Management

Quick-installing metallic raceway comes pre-wired for additional convenience, resists corrosion

inSIGHT™

Data Monitoring

Wirelessly track critical performance indicators such as current, voltage and temperature

inSIGHT™

Circuit-Lock® Disconnect Series

External LEDs improve safety, providing confirmation of make/break on all phases

Consult product specifications for certifications.
