Wiring Device Solutions for Strategic Manufacturing Facilities: A New Guide to Hubbell Solutions that Support Production, Safety, and Reliability

Shelton, Conn. – May 5, 2020 – To help manufacturing facilities quickly find wiring devices they can count on to support production, safety, and reliability, Hubbell Wiring Device-Kellems has created a new guide: Wiring Device Solutions for Strategic Manufacturing Facilities. It's a go-to resource for contractors, installers, and end-users who need solutions that balance high levels of performance and long-lasting durability with easy installation.

Hubbell products are designed to endure repeated use, impact, and harsh environmental conditions to keep production lines moving without fail.

The Wiring Device Solutions for Strategic Manufacturing Facilities guide provides 28 pages of valuable information about Hubbell Wiring Device-Kellems solutions for manufacturing facilities, including:

- Straight Blade Devices
- Ground Fault Protection
- Twist-Lock® and Watertight Devices
- High Amperage Devices
- IEC and UL 1686 Pin & Sleeve Devices
- Switched Disconnects
- USB Charging Devices
- Wire Management
- inREACH™ Cord Reels
- inSIGHT™ Power Monitoring
- Health Screening Power Solutions

The guide is designed to quickly provide users with the information necessary for selecting and ordering industrial products for wiring devices, high amperage, motor control, wire management and power monitoring.

"Hubbell helps manufacturing facilities choose and install the best products for the right application lessening downtime and improving safety." says John Carroll, vice president of marketing for Hubbell Wiring Device-Kellems. "Hubbell is the trusted leader when it comes to industrial products that keep production lines running at top capacity to maximize yields and meet critical goals."

The Wiring Device Solutions for Strategic Manufacturing Facilities guide can be found on the Hubbell Wiring Device-Kellems website and is easily accessed from any desktop computer, laptop, tablet, or smartphone.
