Light, bright walls and floors are the ideal background for dark furnishings that feature a mid-century modern flair.

1

Fill the space with fluffy textiles and gorgeous greenery to bring an organic, natural and calming feel to the room's otherwise sleek lines.

2

Create a show-stopping focal point with the Manvel fan that offers modern elegance in a sleek form.

3

Ornament a work area with an oversize clock flanked by a pair of sconces like Caisson to infuse the room with subtle, industrial appeal.

Carrick

The Carrick wall lamp merges function and fashion with exceptional style. A full-range swing arm supports a crisp Summer Linen shade and etched glass diffuser for glare-free task illumination. An integral rotary switch on the backplate is included for convenient control.

Calhoun

FINISHES

● Vintage Brass - 163

P300047-163

A delightful trend in home decor is the repurposing of antique parts into new, functional furniture and accessories. The Calhoun Collection playfully follows this lead with an apothecary style clear glass diffuser held in place with a mechanical latch. The glass shade showcases a thickened profile to create a vintage-style surface for a classic handmade appearance against a soft, Vintage Brass finish.

Modern Organic Style. Wood tones, greenery, natural textures, and calming colors from nature are some of the forms and materials used to create a warm organic feel in the bath.

1

Try a rugged wooden vanity as a warming element and to balance the modern lines and shapes of the tub and sink.

2

Paint the walls in a tranquil color scheme, allowing the textures of the materials to shine.

3

Embrace stylish simplicity with the Hinton vanity light, whose industrial demeanor is softened by clear seeded glass suspended from clean metal fittings.

Walcott

Walcott lanterns combine a stately elegance with modern style. A distinctive vertical frame is glazed with clear glass panels and punctuated with brass-tone accents to add vintage charm.

Icon Guide

Products referencing this logo meet the energy efficiency requirements for light fixtures set forth in ENERGY STAR® product specifications. Please refer to www.energystar.gov for specific product qualifications and list of certified products.

Please note indoor only (dry location) fans should only be used indoors. Even if an outdoor area or screened-in porch is covered, the motor and the blades can be affected when exposed to humidity. You can, however, “bring the outdoors inside” – as using outdoor ceiling fans are perfectly acceptable to use in interior spaces.

Damp Location ceiling fans and fixtures can be used in covered spaces outdoors or indoors.

If the fan comes directly into contact with water, you'll need to ensure that the ceiling fan has a “wet” listing. Ceiling fans designed for damp or wet locations feature elements, such as moisture-resistant motors and all weather blades. Wet location fans may also be used indoors.

This marking indicates fixtures that have an integrated LED or replaceable LED module that has been tested and listed in the California Appliance Database. Check for certified lamps, fixtures or LED light engines by searching the MAEDBS database. Go to cacertappliances.energy.ca.gov

Table 150.0A defines products that do not have to meet JA8 and can be used to comply with 2016 Title 24. The most common types include:

- Pin-based linear or compact fluorescent light sources using electronic ballasts
- GU-24 sockets containing light sources other than LEDs
- Inseparable SSL luminaires that are installed outdoors

Every effort has been made to ensure the accuracy of information in this catalog. Progress Lighting reserves the right to make product changes from time to time, without prior notification, which may change the information provided in this catalog. Errors brought to our attention will be corrected in subsequent issues.

UL, CSA, or ETL Listed or Classified unless otherwise noted. Bulbs not included with fixtures unless specified. Specifications subject to change without notice.

Metal finishes not specified as “solid” have quality plated or painted finishes.

Finish representations are high resolution digital reproductions, and, while every effort has been made to render colors accurately, they may vary slightly from the actual product, especially hand-painted finishes, due to the nature of hand craftsmanship.
