One of today’s most popular design trends encourages individuals to create unique lighting designs by mixing and matching their favorite fixtures within the same space. There is no need to feel limited by fixtures or finishes in one particular collection!

Coordinating complementary pieces creates a cohesive feel to the home, while also reinforcing your unique design style.
Featuring Design Series fixtures — Looking Glass chandelier and Era pendants.
LOOKING GLASS + ERA

The key to coordinating lighting throughout the home is finding a good balance. Try to avoid choosing every light fixture from one particular collection.

Instead, select fixtures that feature similar metal profiles or design styles. While the Era pendant and Looking Glass chandelier are from different families, each contains elements with an overall vintage feel. Iron accents, hints of brass and mechanical details all work together to create a unique statement.
DEBUT + SQUIRE

Circular elements featured in the mirror and Debut chandelier work together to provide dramatic focal points to this living space.

Additionally, the Squire outdoor wall lantern was incorporated in a creative way in this interior setting to create a rich layer of light to contribute to the room’s décor.
Mix It Up!

Featuring Squire wall lanterns and Design Series Debut chandelier.

WESTFALL + SOIREE

Classic forms, geometric patterns and mixed metal finishes work together to define this stunning living area, while also enhancing the soothing color palette. Westfall’s dramatic soaring frame and candelabra cluster complement Soiree’s tall candles and clear seeded glass, creating an overall inviting atmosphere.

*Featuring Design Series fixtures – Westfall pendant and Soiree wall sconce.*
To contrast the gray color scheme, rich furniture and sleek hardware, we chose lighting fixtures with glass accents, metal finishes and architecturally styled frames, to bring intrigue and a sophisticated sparkle to the room.
Size matters! When it comes to selecting fixtures for a particular room, oversized or exaggerated frames are on trend in a big way.

In lieu of table lamps, we’ve chosen sconces from our Union Square outdoor lantern collection – a unique way of bringing the “outdoors” inside! Finally, our oversized Turnbury chandelier creates a dramatic focal point for this luxurious bedroom.

CALLAHAN, WHISP, BRIARWOOD + BEAUFORT

Ask interior designers and they will tell you: lighting is a key element in any well-designed space. How we choose to light a space relates to how we view all the elements within. The lighting within this open floorplan creates visual interest with similar features - including open frames, vintage bulbs and traditional finishes. Feel free to explore new spaces to incorporate pendants and chandeliers for stunning sightlines within your home.
BRINGING OUTSIDE IN

BEAUFORT
Our Beaufort hanging lanterns add intrigue to an otherwise forgotten space in the dining room and take up less space than traditional floor lamps, providing form and function.

CALLAHAN
Outdoor wall lanterns don’t always have to be used for a home’s façade. Try exterior sconces, such as our Callahan lanterns, on either side of a focal point within the interior of your favorite room.
One of the most important things to remember when illuminating your bathroom is to provide shadow-free lighting at the mirror. This bath area benefits from a generous amount of natural light, while our sleek and sophisticated Zura sconces placed on either side of the bathroom mirror work to further reduce shadows on the side of the face.

**ZURA™**

Featuring Design Series Zura™ bath fixtures.
MARCHÉ + BONITA

We selected the Marché chandelier for this master bathroom because of its luxurious sheer silver organza shade and Polished Nickel finish. These luxurious elements contrast nicely with the geometric tile and neutral color scheme, while creating a spa-like environment for individuals to enjoy while either starting or ending their day.
MIX IT UP!
