

RENEWABLE ENERGY

SOLUTIONS OVERVIEW

WIND AND SOLAR SOLUTIONS

Improving efficiency, reliability and sustainability are keys to success as we find ways to replace fossil fuels with sustainable alternatives that harness the full potential of new power sources.

Hubbell proudly offers a wide selection of products and services that span the entire scope of Wind and Solar renewable energy projects – from solar panels and arrays, wind turbines and towers, to collector systems and to substation and transmission components.

RENEWABLE POWER VALUE CHAIN

Hubbell's success stems from a strong history of listening to our customers and their business needs. We respond by delivering on aggressive schedules to ensure the highest levels of quality and satisfaction, fewer parts and ease of installation. Our market basket of renewable energy solutions are designed with product lifecycle expenses in mind to reduce cost of ownership for:

- Data Centers
- Entertainment
- Educational
- Federal, State and Local Government
- Financial
- Healthcare
- Manufacturing
- Pharmaceutical and Life Sciences
- Retail
- Residential
- Telecom
- Utilities

RENEWABLE ENERGY SOLUTIONS

Hubbell brings proven experience with renewable energy projects, expertise and a global presence to wind and solar energy projects and grid integrations to substations, transmission and distribution systems.

COLLECTOR SOLAR RENEWABLE ENERGY

	Cable & Conduit Fittings	Cable Management	Civil Anchors	Control Stations/Controls	Electrical Boxes & Covers	Electrical Connectors, Lugs & Installation Tools	Enclosures, Above Ground and Underground	Expansion/Deflection	Grounding & Bonding	HV Connectors	Lighting	Resistors and DC Contactors	Tooling

Engaged partnership model to serve our customers' unique opportunities and innovation for growth

From early introductory meetings, to specification and installation, to warranty -- Hubbell is focused on our customer needs, even for the most challenging renewable energy projects. We proudly offer a wide selection of products, practices and value-added services to help define and facilitate implementation and operation of renewable energy strategies.

45 patents

1904

The U.S. Electrical Plug & Receptacle made portable electrical devices possible

Hubbell delivers when the system is complex and when reliability is crucial. Our power, lighting and infrastructure components are installed worldwide in electrical grids, substations, in renewable energy plants -- and on virtually every utility pole.

We are creating advanced sensors that communicate wind and solar plant health and problems before they occur and when they happen.

Hubbell and our large network of distributors are ready to energize ideas and customize a solution for your project and application.

COMMERCIAL AND INDUSTRIAL PRODUCT CATEGORIES

- CONTROL TRANSFORMERS
- DATACOM CONNECTIVITY
- DRY-TYPE TRANSFORMERS
- ELECTRICAL JUNCTION BOXES
- ELECTRICAL MOTOR CONTROLS
- GROUND FAULT DEVICES
- INDUSTRIAL CONTACTORS
- PIN & SLEEVE DEVICES
- PLUGS & RECEPTACLES
- RESISTORS
- STEEL & PLASTIC ENCLOSURES
- SWITCHES & DIMMERS
- WIRING DEVICES & ACCESSORIES

LIGHTING AND CONTROLS PRODUCT CATEGORIES

- ARCHITECTURAL LIGHTING & SCONCES
- BOLLARDS
- CANOPY LIGHTS
- DECORATIVE LANDSCAPE FIXTURES
- EMERGENCY LIGHTING/EXIT SIGNS
- FLOODLIGHTS & POLES
- LIGHTING COMPONENTS
- PARKING LOT/PARKING GARAGE FIXTURES
- RECESSED, SURFACE MOUNTED & TRACK FIXTURES
- SITE & AREA LIGHTING

CONSTRUCTION AND ENERGY PRODUCT CATEGORIES

- CABLE GLANDS & FITTINGS
- COMPRESSION CONNECTORS
- ELECTRICAL LUGS
- GROUNDING EQUIPMENT
- HAZARDOUS FITTINGS
- INSTALLATION TOOLING
- MINING COMMUNICATION & CONTROLS
- SAFETY EQUIPMENT
- SPECIALTY LIGHTING
- WIRE MANAGEMENT

UTILITY SOLUTIONS PRODUCT CATEGORIES

- ADVANCED METERING INFRASTRUCTURE
- ARRESTERS
- BUSHINGS
- CABLE TERMINATIONS & ACCESSORIES
- CURRENT TRANSFORMERS
- CUTOUPS & FUSE LINKS
- GROUNDING & BONDING EQUIPMENT
- HELICAL ANCHORS & FOUNDATIONS
- INSTRUMENT TRANSFORMERS
- INSULATORS
- LINEMAN TOOLS, HOSES & GLOVES
- METERS AND EDGE DEVICES
- OVERHEAD, PAD MOUNTED & CAPACITOR SWITCHES
- POLYMER CONCRETE & FIBERGLASS ENCLOSURES
- SECTIONALIZERS
- SPLICES, TAPS & CONNECTORS
- WILDLIFE MITIGATION
