

# 2-1/8" Deep 4" Round Ceiling Fan-Rated Box with Kwik-Brace® Support

## Features

- Support slides apart to accommodate joist spacing from 16" to 24"
- Deeper 4" round box allows more room to work
- Supports ceiling fans up to 70 lbs and light fixtures up to 210 lbs\*
- Side knockouts provide easy access to pull wires
- Nailing spurs make positioning easy
- Insider nonmetallic sheathed cable connector included
- Metal protection plate included
- Easy-to-follow instructions and mounting hardware included

## Applications

2-1/8" deep Kwik-Brace box and support provides extra room for wiring. The heavy-duty fan brace is designed for easy installation in new or existing construction where joists are accessible.
