

Introducing the HammerTap Ground Rod Connector

The HammerTap offers an irreversible ground rod connection that can be installed without special tooling. The durable design is UL 467 listed for wire to ground rod, and the connection can be made by simply swinging a hammer.

Features and Benefits

- Irreversible connection option, no welding or special tooling required
- Minimal training required
- Provides a visual verification that the connection is installed correctly
- Fast, easy, and safe connections that can be made in any environment using just a hammer
- Can be used as a termination or a “T” (pass-through) ground rod connection

Ordering Info:

Catalog Number	Ground Rod Size	Wire Range Accommodated	Number of Conductors
HT6C58	5/8"	#6 Solid - #4 Solid	1
HT2C58	5/8"	#4 Stranded - #2 Stranded	1

Insert conductor and place on ground rod

Drive with Hammer

Inspect
