

STEEL EMT FITTINGS MADE IN USA

Application

Use RACO Steel EMT set screw compression connectors and couplings in dry locations. RACO connectors secure EMT conduit to an electrical box or enclosure, and RACO couplings join and secure two ends of EMT conduit.

Set screw connectors and couplings provide concrete-tight connections when taped.

Compression connectors and couplings provide concrete-tight connections.

Features

- Made in USA for Recovery Act projects that require its use
- All steel construction ensures mechanical protection for the raceway
- All components are zinc electroplated for corrosion protection
