

## RETRO-RING® LIFE SAFETY APPLIANCES

### Application

RACO® RETRO-RING® is used to position a 4" square steel box in an existing wall. RACO® 205RAC and 911-19 are used to support life safety appliance installations with or without boxes.\*

\*can be used without a box when in compliance with local building codes

### Features

- Allows 4" square box to be quickly and easily mounted in old work application
- Accommodates any depth, 4" square box
- Works in 3/8" to 1-1/2" thick drywall or other wall materials
- Small footprint is easily covered by most popular life safety devices (any appliance greater than 4-13/32" W x 4-3/4" H)
- Steel old work wings allow for secure mounting of box and device to sheet rock
- Includes one template per carton for easy trace-and-cutout
- Made from durable, .039" thick galvanized steel

Catalog No.	Description	Carton Qty.	UPC-A Bar Code	Unit Carton 12 of 5
205RAC	RETRO-RING® for Life Safety Appliances	20	050169002056	50050169002051
911-19	RETRO-RING® for Life Safety Appliances, RED	20	050169504352	50050169504357

# RETRO-RING® ONE OR TWO DEVICES

232-OW

206RAC

## Application

RACO® RETRO-RING® is used to position a 4" square steel box in an existing wall. RACO® 206RAC is used in old work installations where one or two devices are required; with or without box for low voltage appliances. RACO® 232-OW is designed to position a 4" square junction box at any point in an existing wall. No stud support required. Use to mount one or two devices.

## Features

- Allows 4" square box to be quickly and easily mounted in old work application
- Accommodates any depth, 4" square box
- One or two devices mount directly to RETRO-RING
- Works in 3/8" to 1-1/2" thick drywall or other wall materials
- Small footprint is easily covered by wall plate (any wall plate greater than 4-13/32" W x 4-3/4" H)
- Steel old work wings allow for secure mounting of box and device to sheet rock
- Includes one template per carton for easy trace-and-cutout
- Made from durable, .039" thick galvanized steel
- Can be used to mount low voltage devices without a box\*

\*can be used without a box when in compliance with local building codes
