The OMNI®-BP line voltage ceiling sensor combines passive infrared (PIR) and acoustic (sound-activated) technologies to turn lighting systems on and off based on occupancy. The OMNI®-BP features Hubbell Controls' patented IntelliDAPT® technology, which makes all the sensor adjustments automatically.

Throughout the product’s lifespan, smart software analyzes the controlled area and makes digital adjustments to sensitivity and timer settings. Occupancy sensors with IntelliDAPT technology provide a maintenance-free install-and-forget operation.
