

PROJECT INFORMATION

Project Name _____

Catalog No. _____

Date _____

RRU

Hubbell Controls' remote relay units (RRU) are used to switch additional lighting or other control circuits. Designed to work with line voltage sensors, the RRU provides 20 amp switching capacity and features a Normally Open (N/O) isolated contact.

PRODUCT FEATURES

- 120 or 277VAC models available
- 20 Amp switching capacity
- N.O. isolated contact
- UL and cUL listed
- Five-year warranty

General Specifications

Electrical Ratings	RRU120 – 2400 watts @ 120VAC 50/60 Hz, 1 HP RRU277 – 5000 watts @ 277VAC 50/60 Hz, 1.5 HP
Operating environment	Indoor use only
Dimensions	Size: 2.75" W x 4.5" L x 1.10" D
Weight	3.0 oz.
Color	White
Certifications	UL and cUL Listed
Warranty	Five years
