

# Industrial Control Transformer .500KVA 208/230/460-24/115 F2

By Acme Electric  
Catalog # [CE500N004CF2](#)

ICT .500KVA 208/230/460-24/115 F2

## Features

- Encapsulated design protects core & coil assembly from potentially damaging contaminants
- Constructed with high quality silicon steel lamination to minimize core losses and increase efficiency
- Integrally molded terminal blocks with isolation barriers to prevent arc over
- Fuse blocks kits available and easily adaptable
- Series-parallel connecting links save wiring and labor costs

## Application

Acme's TB Series Industrial Control Transformers are especially designed to accommodate the momentary current inrush caused when electromagnetic components are energized... without sacrificing secondary voltage stability beyond practical limits. The transformer's windings and internal terminations are encased in a durable thermoplastic end cap, protecting them from potentially damaging moisture, dirt and other ambient contaminants. Acme's TB Series transformers are dry-type, step-down transformers with the secondary control circuit isolated from the primary line circuit to assure maximum safety.

## General

Catalog Number                      CE500N004CF2  
Color                                      Black

Secondary Voltage                      24/115 V  
UPC    047503013977

## Dimensions

Dimensions                                6.42 in x 5.25 in x 5.91 in  
Height                                      5.91 in  
Length                                       6.42 in  
Weight                                       28.1 lb  
Width                                        5.25 in

## Electrical Ratings

Primary Voltage                         208/230/460 V

## Certifications And Compliance

- Certified Listed
- UL Listed
  - cUL Listed

## Logistics

Carton Quantity                         1  
Pallet Quantity                          48
