Aluminum Multi-Tap Adapters for use on NEMA Four-Hole Secondary Spade Terminals

- Adapters provide the means to connect virtually any required number of conductors to a transformer using NEMA two-hole terminal lugs. Stacking type terminal lugs can also be used where more conductor connections are required than available mounting positions

Product Details

General

Material	Extruded - 6061-T6 Aluminum Cast - 356-T6 Aluminum
UPC	192663115044

Dimensions

Height	6.62 in
Length	5.25 in
Thickness	0.75 in
