Commander (VoIP) yellow, steel cord, 0 button (CB) - CE Marked

By Austdac
Catalog # 115-02-0010-112

The **Commander** family of telephones are tough, weather resistant units built to withstand abuse and environmental extremes; moulded in glass filled polyester to prevent rust and corrosion. It is simple to install with fixings concealed from view giving increased security from vandalism. GAI-TRONICS' VoIP-SIP telephones support Power over Ethernet (PoE) to combine power and connection to LAN or WAN, offering a wealth of additional features including real-time reporting via SNMP, and can be configured by web browser.

Features
