

Aluminum Horns - Model 13302-002

By Austdac

Catalog # 13302-002

GAI-TRONICS provides loudspeakers designed for the reproduction and broadcast of voice communications and pre-recorded tones and speech messages. These loudspeakers are typically used in industrial and commercial locations such as manufacturing plants, metal and chemical processing facilities, and warehouses.

Features

- Aluminum horns with gray epoxy finish for corrosion and weather resistance
- Excellent performance in voice frequencies
- Steel mounting bracket for easy vertical or horizontal positioning
- Separate driver allows flexibility in applications
- 1 3/8 in. UNEF thread (female) provided for driver connection
- Available with all stainless hardware and Type 316 stainless steel bracket; add "SB" to model number
- 65 Degree Nominal Dispersion Angle
- 20.5" Diameter Horn
