Corridor Surface-Mount VoIP Telephone (Auto-dial)

By Austdac
Catalog # 210-712

GAI-Tronics ADA-compliant corridor telephone with 29″ handset cord, surface mount, signed to provide direct point-to-point communication between personnel throughout a facility over an existing Internet Protocol LAN. The telephones are programmed to automatically dial when the handset is taken off-hook (number/address programming via imbedded web browser). The VoIP telephones are intended for connection to a 10/100 BaseT Ethernet SIP network and operate using power-over-Ethernet or an alternative power source.

Application

Corridor Installation, ADA compliant

General
