Behavioral Health Surface-Mount VoIP Telephone (Auto-dial)

By Austdac
Catalog # 210-712BH

GAI-Tronics Behavioral Health series of rugged telephones are designed for use in environments where conversation privacy is desired but safety is a concern. The Model 210-712BH (Auto-dial) Surface-mount Handset Telephone is equipped with a shortened, 12-inch handset cord to prevent the handset being used as a weapon. The cord is also short enough to prevent the possibility of strangulation. Its rugged design provides both quality and longevity. The Model 210-702BH is a SIP-compatible telephone that is ideally suited for installation in any area requiring the Americans with Disabilities Act maximum protrusion Depth of 4 inches (corridors, hallways, passageways) or on any flat surface. The unit's rear mounting plate provides telephone line access, eliminating visibility of, or access to, cabling. Additionally, the 210-702BH is secured with security hardware to prevent vandalism.

Application

- Rehabilitation Centers
- Correctional Facilities
- Mental Health Facilities

General
