

# Commander (SMART analogue), yellow, steel cord, 18 button (CE Marked)

By Austdac  
Catalog # [227-02-000J-212](#)

The **Commander** family of telephones are tough, weather resistant units built to withstand abuse and environmental extremes. The Commander body is moulded in glass filled polyester to prevent rust and corrosion. It is simple to install with fixings concealed from view giving increased security from vandalism. **Self Monitoring and Reporting Telephones** can be integrated with **GAI-TRONICS' TMA monitoring and maintenance software**. SMART gives advanced features including remote programming, fault monitoring and call logging, all from a line-powered telephone capable of operating up to 7km from the exchange on a two-wire cable.

## General
