

Indoor Rugged Telephone - VoIP (Keypad)

By Austdac
Catalog # 246-710

GAI-Tronics' SIP compatible Handset VoIP Surface-mount Telephones are designed to provide direct point-to-point communications between personnel throughout a facility over an existing LAN. The VoIP telephones are intended for connection to a 10/100 BaseT Ethernet SIP network and operate using power-over-Ethernet or an external power source. VoIP telephones are compatible with Cisco's UCM Version 5.0 or newer.
