RED ALERT® VoIP Hands-free Emergency Telephones - Model 393-710

By Austdac
Catalog # 393-710

GAI-TRONICS' RED ALERT® Hands-free VoIP Surface-mount Telephones are designed to provide direct point-to-point communication between personnel throughout a facility over an existing Internet Protocol LAN. The VoIP telephones are intended for connection to a 10/100 BaseT Ethernet and operate using power-over-Ethernet or an alternative power source. The VoIP telephone features real-time alarm reporting that enables system supervisors to monitor the phone's activity and address callers needs or maintenance issues immediately.

Application

Emergency Telephone Communcations (campuses, parking lots, paths)
