RED ALERT® Compact VoIP Hands-free Telephone

By Austdac
Catalog # 397-710FS

GAI-TRONICS' Compact RED ALERT® Hands-free VoIP Flush-mount Telephones are designed to provide direct point-to-point communications between personnel throughout a facility over an existing internet protocol LAN. The VoIP telephones are intended for connection to a 10/100 BaseT Ethernet and operate using power-over-Ethernet or an alternative power source. The VoIP telephone features real-time alarm reporting that enables system supervisors to monitor the phone's activity and address callers needs or maintenance issues immediately.

Application

- Rehabilitation Centers
- Correctional Facilities
- Mental Health Facilities
