

16dB Acoustic Hood

By Austdac

Catalog # [988-61-0001-000](#)

The telephone hood has been designed for use in internal noisy locations, or where privacy is required. Fabricated from zintec steel with a light grey powder coat paint finish the hood is tough and its compact size keeps wall space required to a minimum. Suitable for prisons and remand centers.

Features

- Suitable for use with GAI-Tronics telephones
- Zintec steel powder coated
- 16dB mean noise reduction
- The 25mm wall cavity is lined with class '0' fire retardant foam
- Designed for prisons and remand centres

Application

- Prison

- Remand Centers
- Any Area w/ Limited Space
