

BACPMR3/4

by CMC

Catalog ID: BACPMR3/4

Pole mounted capacitor racks, For mounting up to 6 capacitors in line

- Aluminum Capacitor Racks are constructed of 2 inch web channel and a T-slot (for 3/8" hot dipped galvanized steel bolts, supplied) combined in one complete extrusion
- All have a connector for #6, soft copper (standard)
- The racks have 6" aluminum channel bolted to it for strength. Channel is pre-punched with keyholes for 3/4" thru-bolts (bolts not provided) for pole mounting
- Racks come with two (2) mounting angle legs for stability while assembling capacitors on the ground which fold up when pole mounted
