

BDEA-36-EB

by CMC

Catalog ID: BDEA-36-EB

High Density Two Position Dead End Arm

- Dead end arm supports are fully assembled
- Pre-drilled for dead end hardware and cross arm pins
- Tongue and groove configuration permanently pins end fitting to wood
- Preservative treated, extra strong Apitong wood resists insect, fungus and environmental attack
- Fittings are press-fit into the wood brace, eliminating the need for static-producing bolted ends. The added strength of the end fitting allows the use of smaller wood members, thereby reducing weight and producing a more eye-pleasing brace that is much stronger than one with bolted fittings.
