

BMCFS6-1420

WILEY CLAMP

Bonding Mid- and End-Clamp for FS6 Modules

The WILEY BMFCFS6 mid- and end-clamp is designed specifically to secure FS6 modules through compatibility with the standard mounting slot. An innovative solution with a simple geometry allows for compatibility with most mounting structures and racking systems while providing ease of installation. Galvanized steel construction ensures that this is a solution made to last and the curved edges provide an electrical connection that meets UL2703 requirements for bonding across modules. The ability to utilize a single solution for both mid-clamp and end-clamp applications simplifies installation with a product that can be trusted to stand the test of time.

Highlights:

- Innovative design that allows for quick and easy installation
- Corrosion resistant G90 Galvanized steel provides outstanding durability and performance in all environments
- Compatible with FS6 mounting slot
- Single solution for both mid- and end-clamp applications
- Curved edges provide bonding connection meeting UL2703 requirements
- Recommended for outdoor use

Catalog #	BMCFS6-1420
Item #	50101104
Material	Galvanized Steel
Mounting Hardware	1/4-20

Part Key		
Family	BMC	BURNDY Mid-Clamp
Type	FS6	Compatible w/ FS6 Modules
Style	1/4-20	1/4-20 Mounting Hardware
