

## YCP4CL13CTN, Compression Pulling Grip, #8-#4 AWG Cu/Al, 13" Lanyard Length

By Burndy  
Catalog # [YCP4CL13CTN](#)

Compression pulling grips are wire range taking accommodating copper code, copper flex, and aluminum code wire. Each pulling grip comes in a unique lanyard length for wire staggering to prevent bunching during a pull. See sales drawing and or SOMI for maximum pull load requirements.

### Features

- Range-taking, only 7 compression pulling heads required to pull #8 AWG through 1000 kcmil wire
- Easy to install with 444S or 644 Series of dieless installation tools
- Parallel installation, pulling heads available in multiple lanyard lengths for staggering when pulling multiple wires
- Knurl crimp bands on barrels clearly indicate the proper crimp zone location
- Each lanyard has a protective sleeve for comfort and safety
- UPC tag affixed to each part for ease of identification and ordering
