

# Single-Gang Keystone Wallplate, Angled, 4-Port, Light Almond/Office White

By Bryant  
Catalog # AFP14

Hubbell Premise Wiring’s angled wall plates offer 45° jack and Audio/Video connector mounting along with TIA/EIA-606A station labeling ability and the traditional features of HPW’s standard flush wall plates. The design of the AFP plate positions the patch cord down at an angle of 45°, which provides additional protection against exceeding the minimum bend radius. The 45° angle also protects the patch cord/jack connection from being damaged from office furniture. AFP plates include 2 smooth locations for adhesive labels or can be fitted with optional snap in clear label covers and paper inserts.
