## Pole Cover, 12" x 48"

by CHANCE Utility  
Catalog ID: C4060030

POLE COVER, 12" X 48", These pole covers are used to help protect personnel when raising or lowering a pole between energized lines or to cover poles when rubber glove maintenance is performed in relatively confined areas. The covers are made of high-dielectric linear polyethylene material that will not flash flame. This material will have some softening without deformation at approximately 170°F, and it will resist brittleness at temperatures to -50°F. All Chance pole covers are ribbed to reduce cover contact with the pole, thus minimizing creosote contamination. The rope handles permit personnel to easily spread the covers and snap them around the pole- rubber gloves must be worn during this procedure. Prolonged contact with an energized conductor must not be allowed.

### Product Details

#### General

UPC	096359020462
-----	--------------

#### Dimensions

Diameter	12 in
Length	48 in
Weight	16.17 lb

#### Logistics

Pallet Quantity	12 EA
