

Spiral Conductor Cover with 6' Epoxiglas Handle, 46kV

by CHANCE Utility
Catalog ID: C40600826

SPIRAL COND COVER W/6' HANDLE, 46KV, A 4- or 6-foot long retractable Epoxiglas handle or Clampstick adapter provides for ease of installation from a bucket or platform, in single units or linked together. The bright-orange conductor cover is easy to install. It provides extra protection with a wide air space between two thicknesses of solid insulation. The cover is made of tough, durable ABS plastic. Overall length of each cover is 53 inches. All units can interlock with each other to make up a chain of guards. 15/36.6 kV units are formed on the ends to fit over most 15kV insulators, thus eliminating the need for an insulator cover. Each double-crossarm unit will fit over two 15kV pin-type insulators.
