

# Spiral Conductor Cover with 6' Epoxiglas Handle, 15/36.6kV (Units for Single Crossarm)

by CHANCE Utility  
Catalog ID: C40600836

COVER, SPIRAL COND, A 4- or 6-foot long retractable Epoxiglas handle or Clampstick adapter provides for ease of installation from a bucket or platform, in single units or linked together. The bright-orange conductor cover is easy to install. It provides extra protection with a wide air space between two thicknesses of solid insulation. The cover is made of tough, durable ABS plastic. Overall length of each cover is 53 inches. All units can interlock with each other to make up a chain of guards. 15/36.6 kV units are formed on the ends to fit over most 15kV insulators, thus eliminating the need for an insulator cover. Each double-crossarm unit will fit over two 15kV pin-type insulators.

## Product Details

### General

Style	With 6' (1.8 m) Handle
UPC	096359020530

### Dimensions

Weight	10.78 lb
--------	----------

### Electrical Ratings

Withstand Voltage	36 kV Phase-to-Phase for Single Crossarm
-------------------	--

### Logistics

Pallet Quantity	24 EA
-----------------	-------
