CE100N008

by Acme Electric Catalog ID: CE100N008

ICT .100KVA 240X480-120

- Encapsulated design protects core & coil assembly from potentially damaging contaminants
- Constructed with high quality silicon steel lamination to minimize core losses and increase efficiency
- Integrally molded terminal blocks with isolation barriers to prevent arc over
 Fuse blocks kits available and
- Fuse blocks kits available and easily adaptable
- Series-parallel connecting links save wiring and labor costs

Product Details

General

Application

Acme's TB Series Industrial Control Transformers are especially designed to accommodate the momentary current inrush caused when electromagnetic components are energized... without sacrificing secondary voltage stability beyond practical limits. The transformer's windings and internal terminations are encased in a durable thermoplastic end cap, protecting them from potentially damaging moisture, dirt and other ambient contaminants. Acme's TB Series transformers are dry-type, step-down transformers with the secondary control circuit isolated from the primary line circuit to assure maximum safety.

Color	Black
Secondary Voltage	120 V
UPC	047503015261

Dimensions

Dimensions	3.778 in x 3.375 in x 4.356 in	
Height	4.356 in	
Length	3.778 in	
Weight	4.2 lb	oack
Width	3.375 in	Feedback

Electrical Ratings

Primary Voltage	240 X 480 V
