

MULTI-RANGE VOLT DET (MRVD), 16-161KV TP

By CHANCE Utility
Catalog # [PSC4031029004](#)

A field intensity meter calibrated to read approximate line-to-line voltage when connected to any phase conductor

*Representative Image

Features

- Helps confirm a line is de-energized prior to performing maintenance
- Reads field intensity for approximate line-to-line voltage
- Capable of distinguishing actual line voltage from static or feedover from an adjacent line
- Must mount on proper length hotstick for the voltage class involved
- Pushbutton to confirm operational condition before and after each use

Dimensions

Weight 8.25 lb

Logistics

Standard Package 1
