

"H.M." Epoxiglas Plug Kit

By Chance Lineman Tools & Equipment
Catalog # [C4000730](#)

The Epoxiglas Plug Kit replaces adhesive coated wood plugs. The kit offers you a better structure and moisture seal and requires less operator skill to install . . . features high strength low shrink material, which is of the same ingredients as used in factory "plugging processes". A chemical adjustment prevents the kit from "scumming" over in transit or storage.

General

EU RoHS Indicator	No
