

"H.M." Dry Film Lubricant

By Chance Lineman Tools & Equipment
Catalog # [C4002335](#)

Dry Film Tool Lubricant is offered as a lubricant for all bearing surfaces, sliding and threaded, of Hot Line Tools, Construction Tools and Pole Line Hardware. This dry film blend of solid lubricants, basic ingredient is Molybdenum Disulfide, is applied as any aerosol-packaged spray material, and air dries and bonds to the tool surface almost instantly.
