

Arc Snuffer Removal Tool

By Chance Lineman Tools & Equipment
Catalog # [C4032037](#)

Without de-energizing URD bushings, these two hot-line tools permit easy retrieval of broken arc snuffers and installation of replacements. Designed to ensure adequate electrical clearances, both tools are to be used expressly in a Grip All clampstick. Integral ring on each tool retracts into clampstick. Tool bodies are high-impact plastic with steel inserts. Removal Tool works on the principle of a bolt extractor. Inserted into a damaged arc snuffer, it permits retrieval by unscrewing the broken part.
