

Double Clamp

By Chance Lineman Tools & Equipment
Catalog # [E4020092](#)

Quick, easy rigging on most types of structure is the feature of the ladder attachment sets, affording efficient use of the Epoxiglas® ladder as a platform for live-line maintenance. The sets were designed to be attached to either steel or wood structures, vertical or horizontal, to support the structure-end of the ladder in a tagged-out position. These sets are designed for use on 2.5"-dia. side rail ladders and can be ordered as sets or choosing the individual components. The diagram below shows a typical rigging and working loads with various guy mountings.
